Through Whitney's dedication and commitment to the group, she was quickly able to build trust with and between all participants - which is critical for a positive collaboration and learning atmosphere in the seminar. My initial skepticism was quickly gone, and I could relax and get a lot out of the training. I learned a lot for my professional as well as for my personal life.

Whitney is a well-rounded and excellent trainer. Her way of interacting with a group is impressive and very professional. Whitney will motivate every participant with her never ending, positive and powerful energy. Best trainer I have ever experienced.

Rene

Whitney has an incredible ability to level with her audience and turn the curriculum into a live, interactive, and useful learning opportunity.

What I liked best was her one on one connections to people. She would recognize a specific attribute from someone in the training, or perhaps an event that was discussed, and would make the effort to talk/coach you on a more personalized effort. She also keeps in touch well after the training with literature and tools to continuously keep what you learned on the forefront. I couldn't be more pleased.

The training was absolutely superb, and I genuinely enjoyed each and every moment of it. In fact, we were wondering without e-media / presentations, how can a training be conducted. But we were astonished to see the well-organized training. The training materials were very informative, educative, interestin and truly inspiring.

As part of our Woman Leadership Initiative, it was important to us to address issues that are of equal interest to men and women and to learn how these different challenges are being addressed. In the increasingly demanding working environment in which we operate, we therefore chose the topics "work-life-satisfaction" and "resiliency". The choice of the suitable speaker was made easily and quickly! Whitney provided the information in a clear structure and with simple and pragmatic recommendations that are easy to integrate into everyday life. With a high level of empathy and her ability to look at things from many different perspectives, she managed to provide an excellent overview of the very multifaceted topics. Everyone felt addressed and understood and had the feeling that s/he is not a victim, powerless or at the mercy of stress and daily problems, but yes, can and should actively do something him-/herself! She spices up her workshops and talks and seminars with a sprinkle of humor. It is always a pleasure to meet and listen to her.

I had the opportunity to participate in a modular leadership training by Mrs. Breer. Before the training, the question for me was: Why attend another training? Didn't I lead my team well enough? And in general – I am far too busy to participate in a multi-week international leadership development program. And yet, even on the first day of the training, Ms. Breer laid the foundation for a fruitful learning atmosphere. I was immediately taken in by her presentation style and her material. Now I not only know why successful teamwork has to be based on mutual trust, but also how I can build that trust. As a leader, we tend to believe that we already know what everyone in the team needs, but her training has shown me how to build to a truly successful collaboration and taught me a lot about myself. Employees want great leaders! If you invest in a workout with Whitney Breer, you won't be disappointed!

Whitney Breer's lectures are entertaining, profound, witty and, above all, passionate. Definitely recommendable!
